A BETTER OPPORTUNITY

POLYSOMNOGRAPHIC TECHNICIAN

Saint Francis Medical Center is currently seeking a Polysomnographic Technician to join our AASM accredited Sleep Disorder Center.

Our technicians perform comprehensive polysomnographic testing analysis, and associated interventions. Knowledge of normal cardio-respiratory, neurological, and sleep physiology is essential to our technicians to enable them to monitor polysomnograms and recognize pathology that requires treatment.

This position is full time (72 hours per two week period) twelve hour night shifts, Monday through Friday, 6:30pm to 7:00am. Additional weekend and holiday hours only as needed by the medical center.

Qualifications include successful completion of a polysomnography program, of no less than one year duration, associated with a State licensed and/or nationally accredited education facility or a minimum of six months as a Polysomnographic trainee with documented proficiency in all required competencies. The individual must also hold a minimum credential of certified respiratory therapist (CRT) and be licensed by the State of Missouri as a Respiratory Care Practitioner.

Saint Francis Medical Center offers an excellent benefits package and competitive wages. Qualified applicants may apply online at www.sfmc.net.
